

MDS 3.0 - Ready or Not!

Prepare the Whole Team!

Program Description:

The wait is just about over! The implementation date for the MDS 3.0 on October 1, 2010 is fast approaching. The transition from the MDS 2.0 to the 3.0 is certainly one of the most dramatic events for certified skilled nursing facilities since the first MDS was introduced for OBRA requirements in 1990.

The whole interdisciplinary team needs to be trained regarding all of the changes and be prepared to start off the process with accuracy – there is no time for the learning curve. Why? As we have learned, the MDS drives everything we do in long term care – survey, reimbursement, quality measures, and information available to the public. That fact is not going to change, so **get your team ready.**
